Cable Management Done Right

Cable Management Systems (CMS)

Cable Management Systems are a result of the combined best practices
set forth in the TIA/EIA 568 guidelines for structured cabling systems
for commercial buildings, and between buildings in campus environments.

A'n D Cable celebrates 25 years of providing quality Cable Management Solutions

Cable Routing & Management: _Horizontal and Vertical Cable Managers allow neat and proper routing of cables in racks and protect cables from damage._
These cable managers can take up much needed space in racks.
A careful balance between cable managers and cable density support is important.

Documentation & Labeling: _Knowing exactly what each cable is, where it goes, and when it was installed are all essential._
The larger the datacenter the more important labeling and
documenting the relationship between each cable and device becomes.

Cabling Systems: _Without a high-performance cabling system, Servers, Switches, Routers, Storage Devices and other equipment cannot communicate with each other._
Making sure Cat5E, Cat6, Cat8, fiber cables and connectors are the best quality.
Using proper length cables to avoid confusion and wasted rack space!
The smart use of color codes with all cables in your cabling system!
These are all best practices that result in increased efficiency.

Cabinet Systems: _Cabinet Systems and Racks cover any and all server, equipment, networking and audio/video hardware storage needs_.
Cabinets range from full sized data center seismic rated cabinets, to small office installations
and everything in between. Rack Systems cover a wide range of open rack products that
support network equipment in an environment of unrestricted access.

"We provide the products and solutions that save you time, so you can do your job more effectively"

Horizontal "Zero U" RackOrganizer®

Our Horizontal and Vertical RackOrganizer® System manages all your cables on 19" or 23" equipment racks and cabinets (front and back) without using ANY valuable rack space.

- A'n D Cable's RackOrganizer® Systems are ideal for new or retrofit installations because they are easy to install and do not take up valuable rack space.
- Our RackOrganizer® fits all equipment racks using standard rack screw-hole patterns.
- The use of a "Zero U" system enables custom high density installations.
- For top to bottom vertical coverage, simply stack 2 or more Vertical Cable Managers.
- Save time and space by supporting cables in front and back of the rack or cabinet while maintaining port accessibility.

83-RO8-19-F1
Horizontal "Zero U" RackOrganizer® for 19" equipment cabinet, 2.8" deep, with 4 One Wrap ½" x 6" Custom Cable Management Straps.
(Shipping Weight = .51 Lbs.)

83-RO8-19-F2
Horizontal "Zero U" RackOrganizer® for 19" equipment cabinet, 3.8" deep, with 4 One Wrap ½" x 6" Custom Cable Management Straps.
(Shipping Weight = .67 Lbs.)

83-RO8-19-05
Adjustable 5" to 9" deep Horizontal "Zero U" RackOrganizer® for 19" equipment cabinet, with 4 One Wrap ½" x 6" Custom Cable Management Straps.
Requires either 3" or 5" Extenders
(Shipping Weight = .71 Lbs.)

83-RO8-19-EXT03
3" RO Extender, Black, set of 2, Extends Adjustable Horizontal RO from 5.25" to 6.25" deep. (Shipping Weight = .24 Lbs.)

83-RO8-19-EXT05
5" RO Extender, Black, set of 2, Extends Adjustable Horizontal RO from 7" to 9" deep. (Shipping Weight = .43 Lbs.)

Managing Vertical Cable Runs in Cabinets or Racks

83-VCM8-22U-04-F
22RU Vertical Wide Cabinet Manager, 3.8" deep, 4" Standoff. (Allows for large cable bundles in wider cabinets)
Ships with 10 OneWrap 5/8" x 12" custom cable management straps. (Shipping Weight = 1.9 Lbs.)

83-VCM8-22U-F1
22RU Vertical Cable Manager, 3.8" deep. (mounts in-line with the rails)
Ships with 10 OneWrap 5/8" x 12" custom cable management straps.
(Shipping Weight = 1.2 Lbs.)

83-VCM8-11U-F1
11RU Vertical Cable Manager, 3.5" deep.
Ships with 10 OneWrap 5/8" x 12" custom cable management straps.
(Shipping Weight = 0.75 Lbs.)

Unitag® Snap-On Cable Identifier

- Quick and Easy Installation.
- Clearly Identifies Cables.
- Saves Time When Troubleshooting Networks.
- Interchangeable and Re-useable.
- 5/8" Wide By 1 ½", 2", or 2 ½" Long.
- Available in Orange, Yellow, White and Blue.
- Marking Surface Can Be Rotated 360 Degrees for Easy Viewing.
- UL 94V-2 Fire Retardant.
- Attach a Label or Write on with a Sharpie Pen.

The Company ...

Established in 1989, our core products are Cable Management, Copper Cat5E/Cat6 and pre-terminated Fiber Cables. We have developed quick and easy cable labeling systems like our Unitag® and RackOrganizer® a space recovery system for rack and cabinet cable routing.

A'n D Cable and our partners are able to provide turnkey datacenter construction and network integration services.

Our Mission ...

Our primary objective is to provide the highest quality, personalized service to our customers in a constructive, cost efficient and timely manner. Our service philosophy is apparent through the common courtesies we show our customers.

About A'n D Cable …

Our goal at A'n D is to provide the highest quality of products and services in those areas where we are qualified to perform and thereby make a significant contribution to the development of our customer's facilities.

Our Partners: Groupware Technologies (Dell, HP, Cisco, Juniper, Oracle, IBM, etc.)
CH Reynolds Construction, Corner Products, SWDP, K-Sun, Rip-Tie, Velcro Corp.

A'n D Cable is Small Business/Minority, Veteran Owned Enterprise.

Call 800-394-3008 ext. 105 or e-mail us at sales@andcable.com to make an appointment or speak with a representative.
